INSTRUCTIONS

Contents: 80 cards in total

25 What cards	25 Barrier cards
25 Where cards	5 Blank cards

Aim of the game

Find as many solutions as possible to overcome the access barrier to your arts event. Play with a diverse group of people for a wider variety of solutions.

Set up

1. Place each set of cards (What, Where, Barrier) into piles.
2. Shuffle each pile.
3. Take one card from the top of each pile.

Let's play

In a group, discuss your three cards. Imagine the art (What) in that place (Where) and the Barrier that is stopping people from taking part.

How many solutions can you find?

Once you have as many solutions as possible, take another three cards and challenge yourselves again. Everyone's a winner!

Use the blank cards to personalise your cards to match your specific situations.
